

Task 3 Growing

Wholeschool mini garden project – Children decided to take over the development of the neglected 'gáirdín'. This involved repainting of mural and digging out of stones.

Adding fresh compost to garden and the start of mural designed and painted by children on the student's council.

Final touches before the transfer of plants in a few weeks.

Proud of the finished design

Seed cups in the senior room

Choosing their seeds.

Happy planting!

Planting their
Strawberry
plant.

Fun sensory
play with soil.

Junior room
planting their
seeds.

Junior room learned about what plants need to grow!

Senior room early days planting.

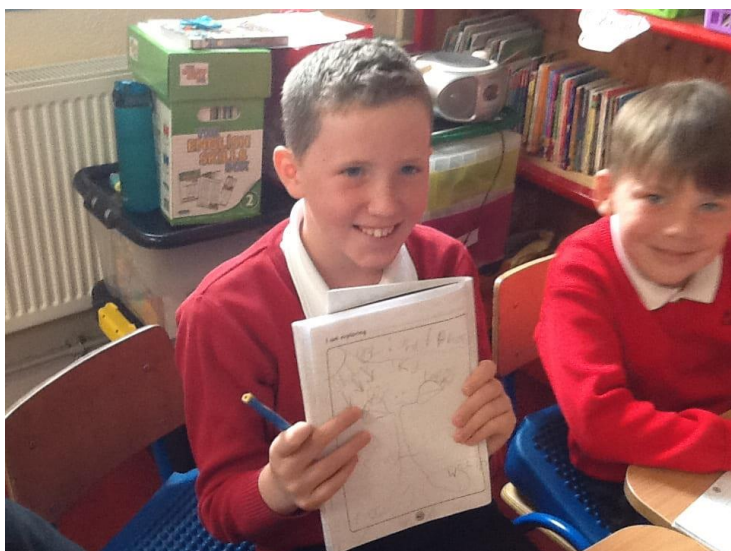

Eva hard at work!

Outdoor planting
